- T: +31 71 581 4 581

Should you require different technical specifications, please do not hesitate to contact us.

Easy to Use

Keep accurate records of your blood pressure readings with the M6 Blood Pressure Monitor. Simply wrap the cuff around your arm and press START. The M6 Blood Pressure Monitor will display blood pressure and pulse on its large digital panel.

Intelli Wrap Cuff

Omron's unique Intelli Wrap Cuff reduces the inaccuracy caused by incorrect cuff positioning – known to be a key source of error in home blood pressure measurement. Intelli Wrap Cuff reduces the impact of incorrect cuff placement on accuracy. The pre-formed cuff is easy to put on to your upper arm with one hand, making blood pressure measurement even simpler.

Reliability

The M6 is validated both by the European Society of Hypertension (ESH) as well as by the British Hypertension Society (BHS).

Accessories

All M6 sets will be supplied with a standard medium size upper arm cuff. Both a smaller (infant) cuff as well as a larger cuff are available upon request.
