Should you require different technical specifications, please do not hesitate to contact us.

Benefits

Practical and portable, the EBA20 is ideal when the machine needs to be frequently transported during the course of your trial. This centrifuge equipped with an 8-place fixed-angle rotor is ideal for a small quantity of samples.

Practical

The EBA 20 is microprocessor-controlled. It has been designed to accommodate various tube systems as well as glass tubes without adapters. Additional Adapters for other blood collection systems can be supplied upon request.

Safety

The EBA 20 has a lid lock (with an emergency release) and a motor anti-overheating protection mechanism.

Easy to use

The EBA 20 has ergonomically arranged controls and displays. The entry of the parameters takes place via a keypad. The settings can be easily adjusted. The speed can be incremented in steps of 100 rpm and the time in steps of 1 minute.
