Should you require different technical specifications, please do not hesitate to contact us.

Easy to use

The microprocessor-controlled Biofuge Haemo is equipped with bright digital displays and touch-pad keys for quick and easy setting of speed and run-time. The values last used are stored. To repeat the run, simply press the start key. It is also designed with a userfriendly self-diagnostic system which indicates errors directly on the display.

Maintenance Free

The Biofuge Haemo is equipped with a brushless motor, so there is no need to replace carbon brushes. As a result of its clear touch panel, the centrifuge is simple to operate, ensures reproducible results and is easy to clean.

Benefits

The Heraeus Biofuge Haemo is functional and sophisticated with an ergonomic design. The machine is ideal for a clinical trial use in medical practices and small laboratories. It is most often used for determination of the haematocrit value. The Biofuge Haemo comes complete with a 24-place haematocrit rotor.

Safe

The Biofuge Haemo complies with international safety standards and is equipped with a lid lock, lid interlock and steel armoured guard ring.
