- T: +31 71 581 4 581

Should you require different technical specifications, please do not hesitate to contact us.

## Accessories

Made of impact resistant, fiberglass reinforced polyamide, our autoclavable rotor offers high stability and outstanding run characteristics. It is easily removed for cleaning in the laboratory washing machine. An extensive range of adapters permits centrifugation of all standard 5, 7, 10 and 15 ml tubes, including the popular "Monovette", "Vacutainer" and "VenoJect" blood collection tubes.

## Maintenance Free

Our Heraeus Labofuge 200 is equipped with a brushless motor, so there is no need to replace carbon brushes. Besides saving time and money, this also ensures clean operating conditions.

## Functions

The microprocessor controlled Heraeus Labofuge 200 is equipped with bright digital displays and touch-pad keys for quick and easy setting of speed and run-time. To repeat a run, simply press the start key. It is also designed with a user friendly self diagnosis system which indicates faults directly on the display

## Safety

Our Heraeus Labofuge 200 complies with international safety standards and is equipped with a lid lock, lid interlock and a steel armoured guard ring.
