

Centrifuge Pico

easy-to-use microcentrifuge

Power Supply:	120 V, 60 Hz, 15A or 230 V, 50-60 Hz
Max. Speed:	1 min - 99 min
Max. Speed±:	13,300 min-1 rpm
Max. RCF:	17,000 x g
Max. Capacity:	24 x 1.5 / 2.0 ml
Dimensions (HxWxD):	225 x 243 x 352 mm
Weight:	9.7 kg

Prices

Price will be based on the agreed minimum rental period and on specifications of required equipment.

Our standard minimum rental terms are 6, 12, 18, 24, 36, 48 and 60 months.

- T: +31 71 581 4 581

Should you require different technical specifications, please do not hesitate to contact us.

High Performance

The brushless induction motor of the Pico is extremely efficient. In 15 seconds, it accelerates the rotor to its maximum RCF of 16,060xg, which is sufficient for all standard applications. A "quick run" key is used for short processing runs. The microprocessor provides easy control and great functionality. It is equipped with a lid lock and interlock. The program memory makes sure the most recent data remains stored for quick rerunning.

Benefits

The compact Biofuge Pico microlitre centrifuge, thanks to its small size, saves space in the laboratory. Even at maximum speed it operates extremely quietly. Short acceleration and braking times ensure rapid processing of microlitre samples.

Quiet and Small

The Pico is a valuable aid in the small laboratory, where noise can be an issue and ensures whisper-quiet operation even at maximum speed. Take advantage of the 26 x 33 cm footprint of the compact Biofuge Pico, which can be integrated into any workplace. The low height of the Pico casing makes it easier to load the rotor.

Bio Containment

The Biofuge Pico is provided with a bio containment lid, which provides an effective seal against hazards, and which has been certified for bio containment by the Centre for Applied Microbiology and Research at Porton Down, U.K
