### Small, light, handy pumps

Thanks to their minimal design and light weight, Space pumps can be used to configure customized, tailor-made solutions as individual pumps, small therapy units, or a complex infusion system.

### Intuitive operation

Operators reap the simple user interface she/he is familiar with. Pump guides the user through the drug and dosages settings and all configurations.

### Clear structured display, excellent readability

The display guarantees brilliant and therefore fast readability, even from a distance, for instance from the foot of the patient's bed. The display of all information is subject to a clear prioritization of the most important information.

### Long battery operating time

Minimal power consumption of the devices and new battery technology ensure long operating times, e.g. 9.4 hrs. @ 80 ml/h, 8.5 hrs. @ 100 ml/h.

### Infusion sets

Infusion sets are not standard included with the Perfusor Space pump, the sets are available through MediCapital Rent. For a suitable tailor made quotation please contact us.
