Should you require different technical specifications, please do not hesitate to contact us.

Easy to use

The ULTF80 (220 V) and the SUF100 (110 V) ultra low temperature freezers are ideal devices for small volumes of samples. They can be used in medical practices and small laboratories.

The freezers have ergonomically arranged controls and displays. Entry of temperature parameters can very quickly and easily be done via a keypad.

The exterior is made of white epoxy coated steel plates. The interior consists of stainless steel and has smooth surfaces which can be cleaned easily. The freezers can be mounted on wheels.

Safe

Acoustic and optical alarm with battery back up. The alarm (visual and acoustic) will be activated when temperature drops out of the pre-programmed range. This freezer is also equipped with a lock.

Microprocessor controls

The freezers are equipped with a micro-processor-operated temperature controllers. The digital display (with battery back up) is easy to set and maintenance free.
