

# Centrifuge Eppendorf 5702R

Refrigerated high performance centrifuge

<b>Power Supply:</b>	230 V 50/60 Hz , 150 V 60 Hz
<b>Max. Speed:</b>	4,000 rpm
<b>Max. RCF:</b>	3000 x g
<b>Max. Capacity:</b>	4 x 100 ml DIN
<b>Temperature Range:</b>	-9°C to +40°C
<b>Dimensions (HxWxD):</b>	380 x 580 x 260 mm
<b>Weight (without rotor):</b>	36 kg

## Prices

Price will be based on the agreed minimum rental period and on specifications of required equipment.

Our standard minimum rental terms are 6, 12, 18, 24, 36, 48 and 60 months.

For a suitable tailor made quotation, please contact us at:

- T: +31 71 581 4 581

Should you require different technical specifications, please do not hesitate to contact us.

## Very compact design

The Eppendorf 5702R is a valuable aid even in the small laboratory, where noise can be an issue and ensures whisper-quiet operation even at maximum speed. Take advantage of the 38 x 58 cm footprint of compact design, which can be integrated into any workplace.

## Refrigerated

If the centrifuge has not yet reached the correct temperature via standby refrigeration, you can quickly reach the desired temperature by using the FastTemp function. Like-wise, standby refrigeration will maintain a particular temperature following use.

## Rotor Flexibility

Fixed angle, swinging bucket and microliter rotors for all common tubes from 0.2 to 100 mL are available for applications using microliter, DIN, blood sample and Falcon® type conical tubes. Biocontainment ensured due to swing out buckets with Aerosol-tight caps.

## Operation: simply intuitive

All 5702R centrifuges have a user-friendly control panel with a small number of clearly-labeled function keys/ knobs and an easy-to-read LCD display. Eppendorf proves to be state-of-the-art technology, providing clear advantages for routine operations: smooth and quiet operation, maintenance free and environmentally safe cooling technology.
